THE DIFFERENCE

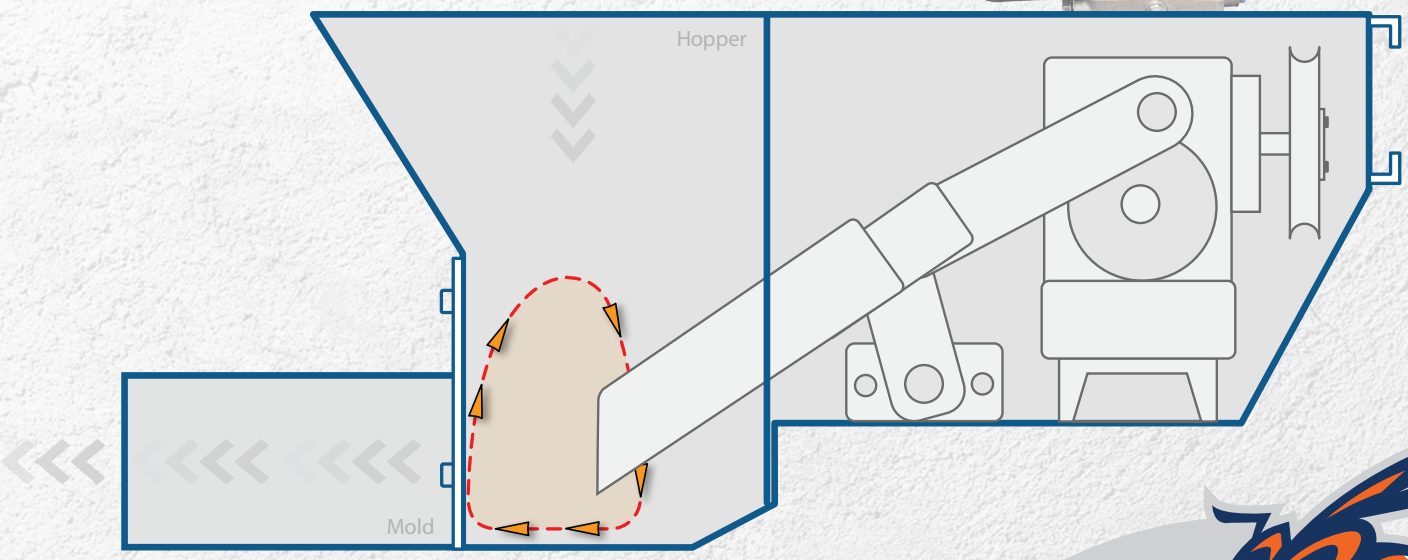

NOT ALL MACHINES ARE EQUAL!

AWARDED PRODUCT INNOVATION — THE CONCRETE EDGE — *World of Concrete*

AWARDED PROVISIONAL PATENT — THE CONCRETE EDGE — *US Patent Office*

AWARDED BEST QUALITY — THE CONCRETE EDGE — *Concrete Contractor*

WHAT IS ANTI-BRIDGING?

It's literally the difference between a curb job and a professional decorative curb system. Save time and money and learn more about the industry's only patented drive - the Elliptical Plunger. It makes an incredible difference in concrete longevity!

ELLIPTICAL PLUNGER DRIVE

HORNET EP

WORLD'S MOST POPULAR

The Lil' Bubba® ***Hornet EP*** Curb Machine creates continuous decorative concrete borders and walkways allowing the user to follow any existing landscape bed design, placing borders as close as two inches to a stationary object while making tight turns. The patented ***Elliptical Plunger Drive*** eliminates concrete bridging and creates a consistent flow, scoring the concrete to prevent "flat spots" and "weak areas."

SPITFIRE EPC

MASTER OF LARGE CURBS

The Lil' Bubba® ***Spitfire EPc*** is designed to make quick work of larger curb shapes and is the perfect solution for parking lots, wheel blocks and any commercial curb installations feeding from a concrete truck. While not a substitute for the *Hornet EP*, the ***Spitfire EPc*** allows the curbing contractor to expand into the commercial curb market.

With the "EPC Mold Adapter" this machine will run the standard EP molds, including the 24" walkways.
