The Lil’ Bubba® Hornet EP Curb Machine creates continuous decorative concrete borders and walkways allowing the user to follow any existing landscape bed design, placing borders as close as two inches to a stationary object while making tight turns. The patented Elliptical Plunger Drive eliminates concrete bridging and creates a consistent flow, scoring the concrete to prevent “flat spots” and “weak areas.”

SPITFIRE EPC
MASTER OF LARGE CURBS

The Lil’ Bubba® Spitfire EPC is designed to make quick work of larger curb shapes and is the perfect solution for parking lots, wheel blocks and any commercial curb installations feeding from a concrete truck. While not a substitute for the Hornet EP, the Spitfire EPC allows the curbing contractor to expand into the commercial curb market. With the “EPC Mold Adapter” this machine will run the standard EP molds, including the 24” walkways.

WE GOT YOUR BACK... LITERALLY

Experience the ruggedness of the Hustler 4WD. Hauls everything. And anything.
NO SHOVEL. NO WORRIES.

The Lil’ Bubba® Viper HD is the preferred machine for fast and easy curb preparation. Equipped with the 9” wide curbing rotor, it quickly cuts up to a 4” deep by 9” wide trench in the hardest clays. The steerable wheels make fancy curves and tree rings easy. The debris removed is placed neatly on the flowerbed side of the trench and can be raked back behind the curb after the install for the fastest preparation possible.
